COMPANY PROFILE

ABOUT US

We are glad to have the opportunity to introduce our company to you. We have knowledge in skill handling of steel materials including universal beam, hollow section, tube, channels, regarding, rolling or bending truss type frame, tubular frame, reinforcement ring, monorail, usually roll in 'y-y' axis, roof truss beam roll in 'x-x' axis (the hard way).

Through our expertise, skill and proven track record, we have rolled the most demanding Architecture steel in many prestigious project in Malaysia including the Grand Stand at Formula One Circuit, K.L.I.A. roof truss and luggage conveyor guide rail, partial M.R.T. underground tunnel support beams, Penchala tunnel in K.L., Bintulu airport roof truss in Sarawak, Bahrain in Asia, A.I.M.S.T. in Kedah, Double Track Station in Ipoh, monorail for hoist cement plants.

Our excellence skill and quality in Architectural steel are presented through the past and on going projects.

Fast to construct and economical. This type of developments have far-reaching implications. The inherent advantages of steel frame construction – speed to erection, low foundation loads and ore recently, low cost are other forms of construction or was restricted by the cost of complicated fabrication.

PORTFOLIO LIST

- 
- 01 Factory Batu Arang
 - 02 KL Centre Kasturi Walk
 - 03 Zoo Negara Panda House
 - 04 Setia Eco Pack ClubHouse
 - 05 Penang Second Bridge Toll
 - 06 Bukit Damansara Bungalow
 - 07 One Utama New Entrance
 - 08 Monorail of Hoist Cement Plants
 - 09 Batu Gajah Conference Hall, Ipoh
 - 10 K.L.I.A Roof Truss and Luggage Conveyor
 - 11 Asian Institute of Medicine, Science Technology, Kedah
